**Topic Sessions include:**

**Minnesota Holocaust Survivor Films**
The JCRC produced short documentaries focus on Minnesota Survivors. Speakers are available to come to your classroom to show a film and answer questions.

**Echoes and Reflections**
Whether teaching a full semester of Holocaust studies or including information about the Holocaust in a unit of study about World War II, this curriculum allows teachers to choose as little or as much material as they can cover in a specific time period and still teach the subject matter effectively. Developed primarily for use with high school students, the Echoes and Reflections curriculum has also been adapted successfully to accommodate both younger and older students. Each inter-disciplinary lesson is supported with numerous primary source documents including poems, literature excerpts, maps, photographs, timelines, a glossary and student handouts.

**iWitness Online tool**
Teachers will have the opportunity to learn about these video narratives. This application, which will also add testimonies of Survivors from the Rwandan and Cambodian genocides in the future, includes a powerful search engine, student-guided activities, an encyclopedia, a video editor, and a communication space for teachers and their students.

*Each participant will receive curriculum and five films.*
